Smart Save™
Round up every purchase and automatically invest the difference.

Risk mitigation
Spread your risk and stay secure with our one-of-a-kind solution.

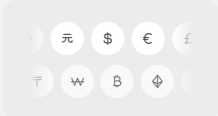

"A great impact of Finns has been the time-savings. We've shortened the time commitment for submitting expense reports."

 **Sarah Olsson**
Founder & CEO @Finns

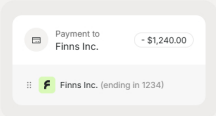

Smart Save™

Take your finances
further with Smart Save™

The plan to accelerate your startup's success with banking built for game-changers.

Integrate with over 150 currencies, switch in a snap and always get top-notch exchange rates.

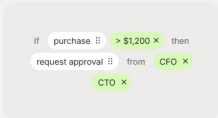

Manage everyday business finances, set team spending limits and get instant alerts.

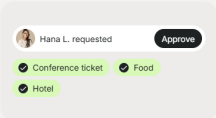

For Founders

Routine tasks are
now automated

When and how your data interacts with AI is defined by you within the workflow.

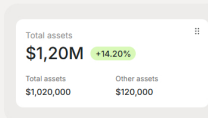

Automatically routes requests to keep things moving, especially when you need to make big purchases.

Track those business expenses like a pro! We've got your spending organized and ready for approval.

Strategic decisions are now real-time

When and how your data interacts with AI is defined by you within the workflow.

Watch your assets grow. Our real-time dashboard shows you exactly where your company is at.

Property	metadata
Operator	contains
Value	"first time customer"

Smart tags that actually make sense! Add context to your data without the headache.

Here's why businesses trust Finns

Sarah Olsson
Founder & CEO @Finns

"The real-time analytics have transformed how we make financial decisions. It's refreshing to use a platform that clearly understands the pace of modern startups."

David Park
CTO of PayFlow

"Finally, a financial platform that speaks tech. The API integration took minutes, not days, and the dashboard actually makes our cash flow management enjoyable."

Sarah Olsson
Founder & CEO @Finns

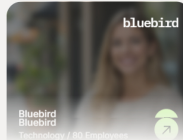

"The real-time analytics have

insights from day one."

Rachel O'Connor
Indie Game Developer

"The automated categorization saves our accounting team hours every week. It's like having a financial AI assistant that actually understands startup spending patterns."

Marcus Thompson
Founder @CloudStack
